BHUSD TRENDS

Property Taxes and “Excess” Taxes

LCFF and Property Taxes

Low Property Tax District

High Property Tax District

Community-Funded District

Difference Between Community Funded and State Aid— ADA and Property Taxes

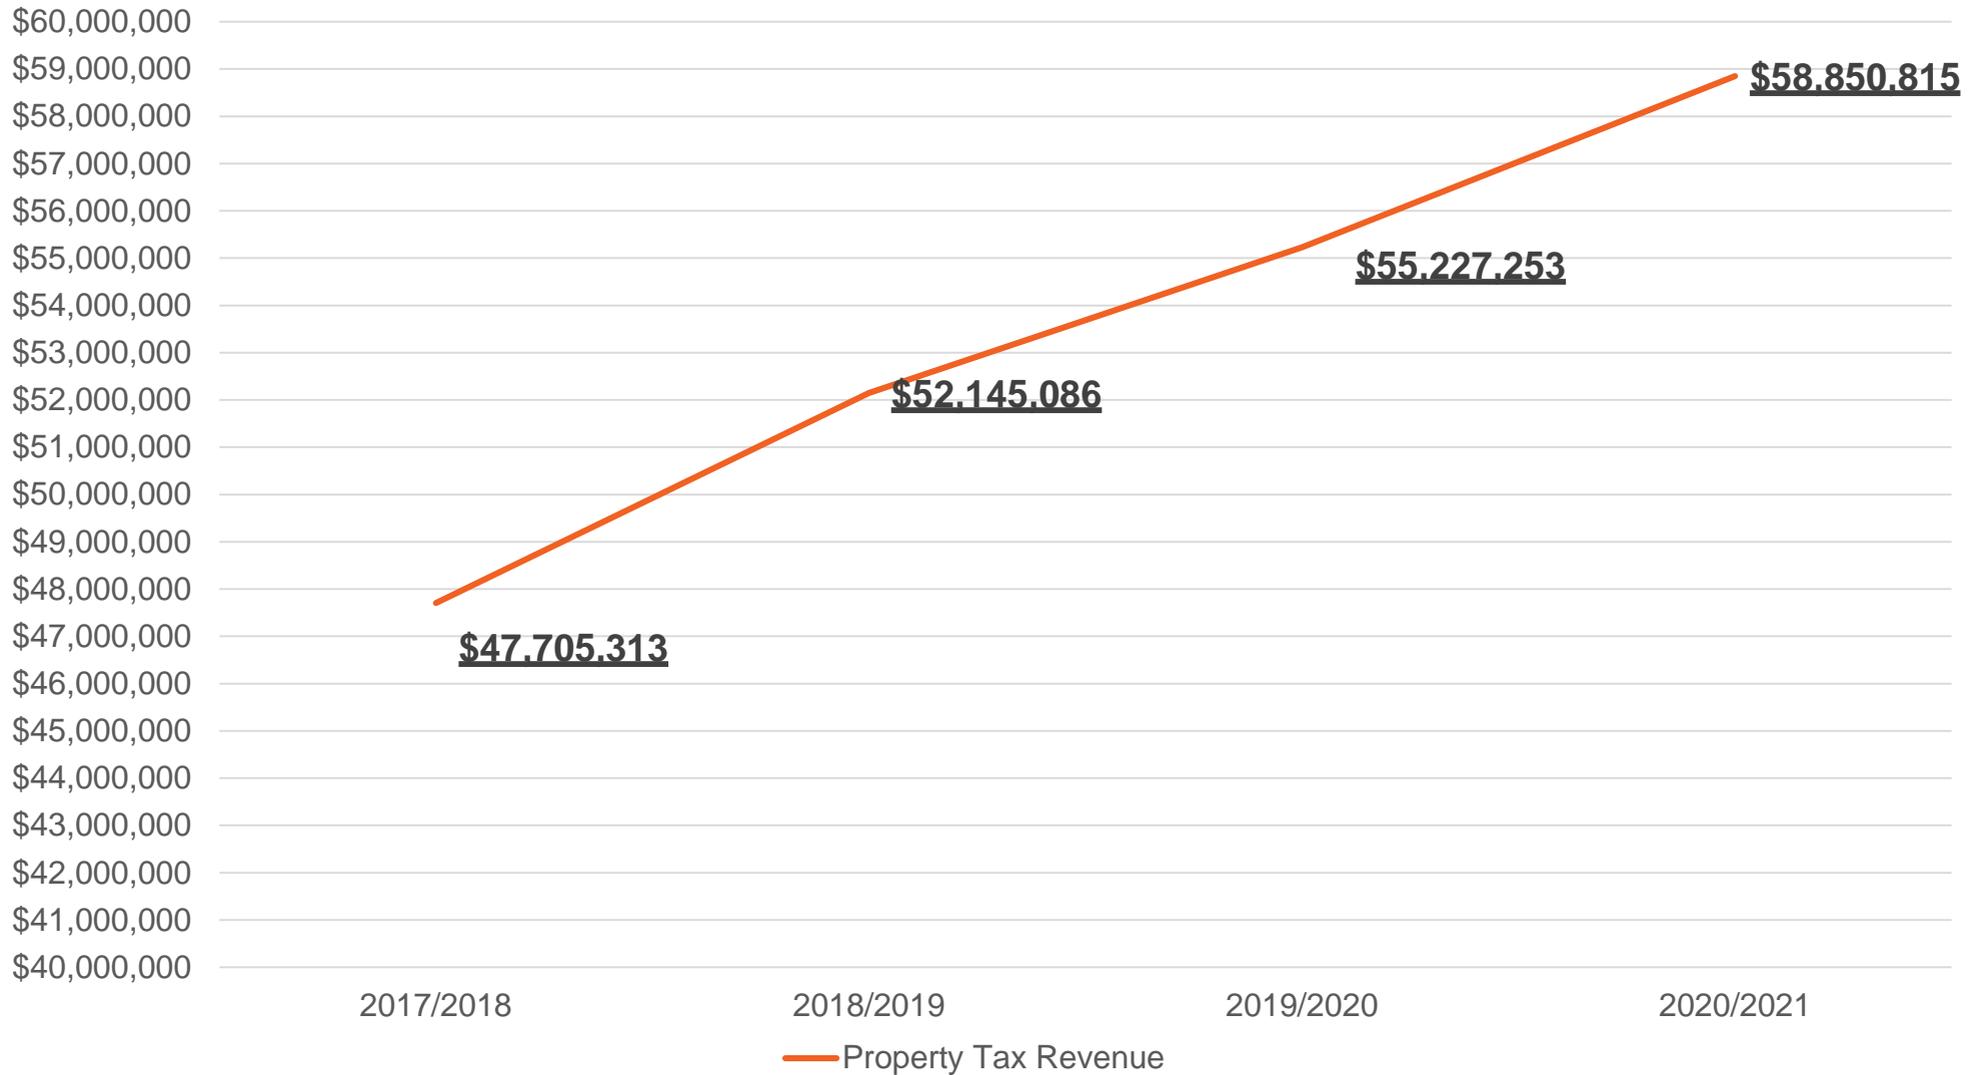

State Aid

- ADA drives funding received under the LCFF
- Demographics drive supplemental and concentration grants
- Property tax changes increase or decrease state aid, not income
- ADA increases result in increased total revenues
- For total revenues, ADA matters, property tax doesn't

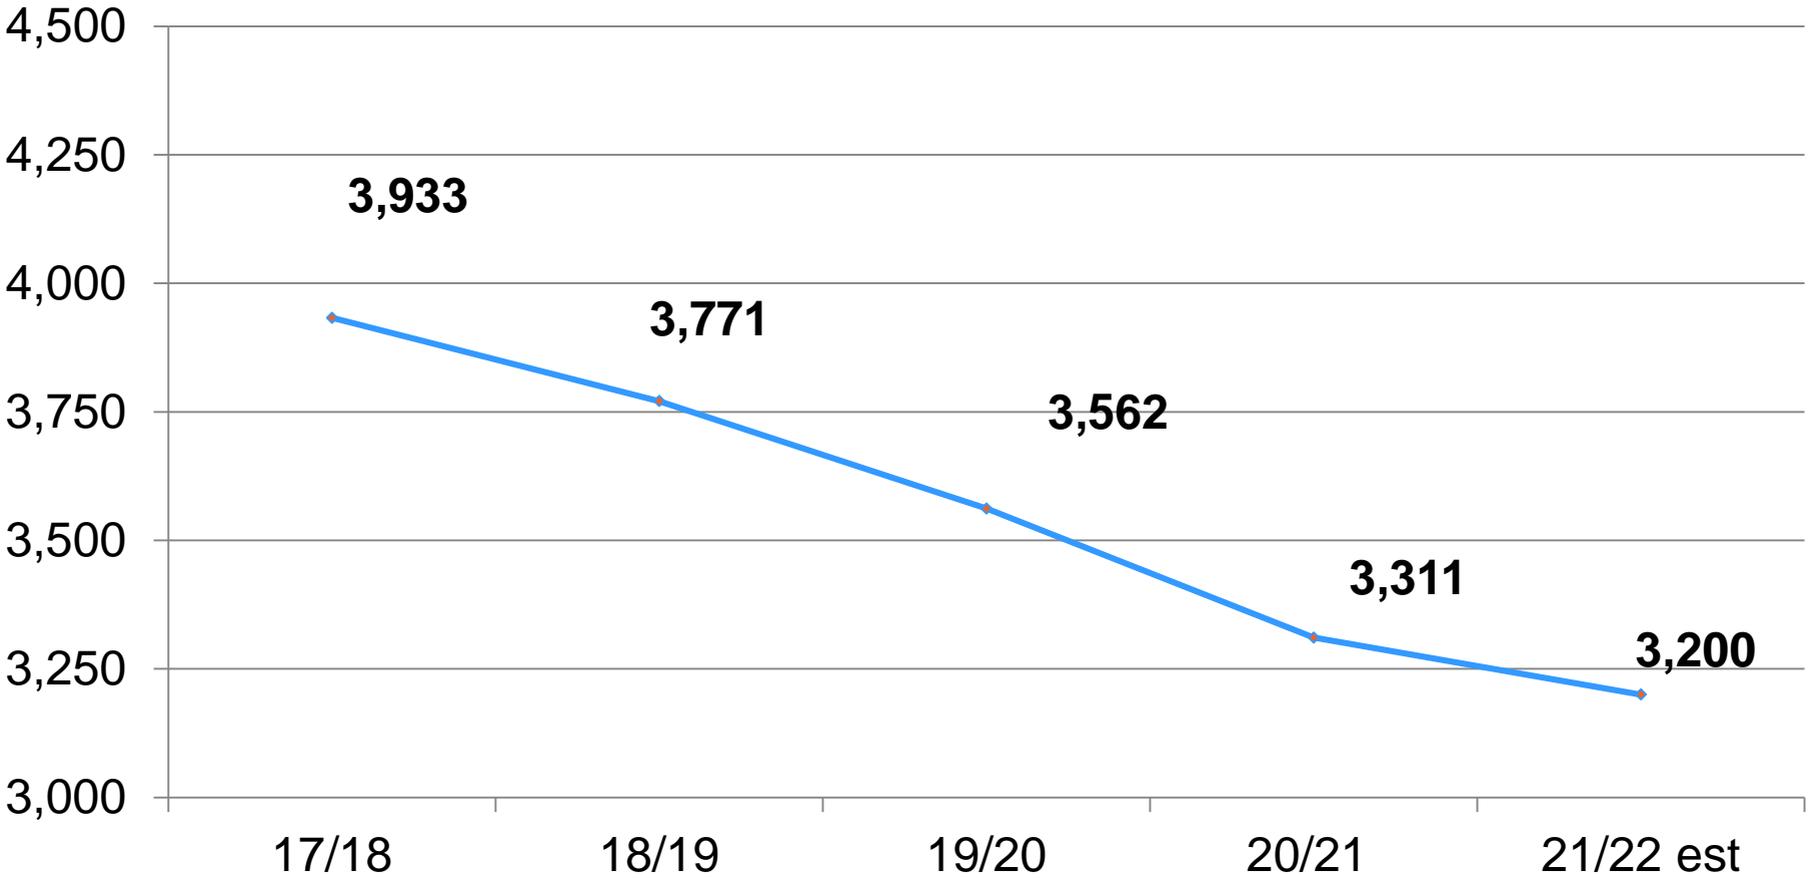

Community Funded

- Changes in ADA don't greatly affect unrestricted revenues
- Changes in property taxes increase or decrease unrestricted income
- ADA increases result in lower per-pupil revenues
- For total revenues, property taxes matter, ADA doesn't

BHUSD – IN SUMMARY

- **Talking Points:**

- 2020/2021, operationally, was **not** reflective of a normal “fiscal” year;
- Students and most staff were off campus at least 80% of the year, reducing operational costs;
- Enrollment declines at BHUSD are reflective of overall student-age population declines in L.A. County and all of coastal California;
- Although reserves have increased, the Board may allocate these funds for State mandated expansion of transitional kindergarten, for which BHUSD gets no additional funding, and for the possible expansion of early education 0-3 and preschool programs.

NEXT STEPS

- Board approves Unaudited Actuals report;
- By September 15th, LACOE will approve our 21/22 Adopted Budget after which time we will be able to post current year budget adjustments;
- Auditors review and test financials with completion of the financial audit in December and presentation of report and any findings to the Board no later than January 2022;
- In late October, staff will present a draft version of the 21/22 First Interim Report which will be inclusive of all budget adjustments, staffing updates and posting of carryover balances from the 2020/21 fiscal year.
